

Spring Master Class

A Special Five Day Advanced Glass Workshop

with Richard La Londe at his Whidbey Island Studio

May 30 - June 3rd, 2014

Friday, Saturday, Sunday, Monday, Tuesday 9:30 am – 5:00 pm

This is an advanced workshop and you should be proficient in glass cutting, glass fusing, and also have attended one of my workshops, where you learned the “liquid glass line” technique, or by instructors permission. This class is limited to 6 and 6 participants are needed for the class to occur.

Make larger fused glass pieces. Take your art to a professional level!

Participants in this Master Class will design and make a 20” x 20” wall piece with an aluminum backing plate - ready to hang on your wall. You will also fabricate a “La Londe-style” wavy stainless steel mold. We will work in the hot shop of Island Glass Studio with Rob Adamson where you will decorate and hand-roll sheet glass - one of these sheets will then be slumped into your metal mold. We will also blow a glass piece. You will watch and learn from Michael Stadler who will photograph our glass art and then we will pack our glasswork and metal mold to safely ship home.

Richard La Londe’s studio is located on beautiful Whidbey Island about 1½ hours including the short ferry ride, from downtown Seattle, Washington. A Motel or Bed & Breakfasts are available on the Island. This is an opportunity to study and interact with a pioneer in glass fusing and author of *Richard La Londe: Fused Glass Art and Technique*, and *Richard La Londe & Friends - Book II*, in his own studio.

Workshop fee \$850 (includes 4 lunches)

Materials fee \$250

Hot Shop fee \$150

Due to the limited class size and advanced techniques involved, your enrollment in this workshop will be determined through an interview with Richard. Then a \$600 deposit is required to register and the balance of \$650 is due 30 days before the class starts, or you can pay in full at the time of registration, **total workshop cost \$1250.**
